Rave Alert

Fast alerts for your enterprise when seconds count

Keeping your organization informed is challenging when users are in different locations, on different networks, and using different devices. In a rapidly evolving emergency, it's even more critical to keep all of your teams informed and on the same page.

Rave Alert is a leading mass notification system that enables reliable, multimodal messages in mere seconds. An intuitive, high availability system, Rave Alert is easy to use, easy to deploy and easy to track, so you know your notifications made it to the right people in the moments they need to be informed.

→ **Communicate effectively in three clicks**

From everyday usage to catastrophic events, quickly and easily send messages in over 100 languages. Utilize operation messaging for non-emergency events.

→ **Get the right message to the right people**

Keep your entire organization engaged, no matter the device they are using. Integrate with existing communication systems to extend your reach.

→ **Performance you can rely on**

Backed by geo-redundant data centers, Rave Alert sends billions of notifications annually with reliable delivery rates.

MOTOROLA *SOLUTIONS*

Key features

Cloud-based notifications

Quickly and reliably send emergency and non-emergency mass notifications via text, voice, email, desktop, mobile apps, social media, RSS, digital signage and more. Target messages by specific groups or geographical areas.
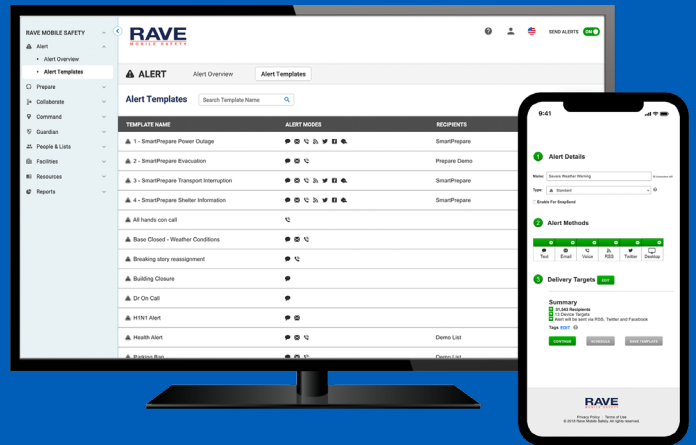

Create automatic polls

Solicit responses in real-time through SMS text, email and voice calls with polling. Ping your recipients for any information you need to know, like scheduling overtime or wellness checks. Responses can be organized into actionable reports.

Provide access based on role

Customize the interface so administrators can only see tools and options relevant their role or needs. New users can be up and running in less than two hours.

View robust reports

Detailed, real-time reports include alert content, responses, notification speed and success/failure by delivery method, providing insight into the effectiveness of your communications.

Maximize your reach

Rave Alert makes it easy to communicate with your organization, from everyday usage to catastrophic events. Enhance your internal response coordination and promote strong engagement within your organization.

Enhance emergency preparedness and response, interconnect public, private and 9-1-1 response teams, and provide timely and targeted communications with the full Rave Mobile Safety suite.
